## **Thank You!**

It sure is feeling good to get outside. We are excited to see summer. As always, we really appreciate you continuing to work out at Nick's Pro Fitness. We want you to know that we are working on these projects: the stairs out front are being worked on the first week of June. We'd been wanting to do it earlier, but we had to wait until the weather would cooperate. We will remove the mini river rocks and will install a new Epoxy product, which will be much nicer and much more durable. We appreciate your patience with this project. The parking lot will get fixed up as well, we know that it's in need of repair. The Club remodel will start this week as well. The Club really needs the additional square footage – to give our members more space, a dedicated spin room AND the much anticipated YOGA program. We will offer approximately 25-30 yoga classes per week – some of them will be cool, some will be warm, some will be hot and some will be crazy hot! We can't wait to give you all another reason to tell all your friends and family about Nick's Pro Fitness. Thanks for your continued support. We continue to work hard for all of you.
